Delivering pure HiFi acoustics, with deep, controlled bass and crispy highs.

USPs

- Multiroom speaker with an app powered by WiiM.
- 6 preset buttons
- Leather look with aluminum details.

LONG DESCRIPTION

This speaker is the top unit of the Drumfire II W, that will give you quite a punch, even on its own. Delivering pure HiFi acoustics, with deep, controlled bass and crispy highs. The Drumfire D-2 W is the new, improved version of Drumfire D-2. It offers multiroom listening via an app based on WiiM's latest technology, as well as the option of Google Cast, AirPlay 2, Spotify Connect and Tidal Connect, and an even greater sound than its predecessor. The loudspeaker firmware together with the new Audio Pro app, both powered by WiiM, offer advanced EQ and Room Correction, Wi-Fi timing synchronization, and access to a wide range of streaming services. Both will be updated regularly, the app via your mobile device's app store, while firmware updates are managed automatically over-the-air, directly by the speaker.

The Drumfire D-2 W is designed to fit elegantly into any home. Wrapped in faux leather, details in solid aluminum and a sturdy wooden cabinet. The multiroom function allows you to play the same music throughout your house. Group and play, set to left/right for stereo pairs. Play all together. Or not. You choose. Multiroom sound and multi person usage.

When the Drumfire D-2 W is included together with the subwoofer in the complete Drumfire II W configuration, the crossover is automatically adjusted to let the subwoofer handle the deepest bass, enabling you to play even louder.

Streaming services available: Amazon Music, Deezer, iHeart Radio, Napster, Qobuz, QQMusic, Spotify, Tidal, TuneIn, VTuner and many more via Google Cast and AirPlay 2.

THE W-GENERATION

This product is part of the new W-generation of Audio Pro products, which means you get even better sound, a new user-friendly app and a refined and harmonized design. Our new app is based on WiiM's latest technology, and offers an advanced EQ, room correction, new streaming services and many more appealing features.
