Safe and secure connection

SMART CARE THAT UNDERSTANDS

Motorola Nursery proudly unveils a new era of smart baby care with Adorable Intelligence, our signature mark of innovation.

Designed to support modern parenting, it combines advanced AI, meaningful insights, intuitive design, and secure technology to help you feel informed, confident, and connected.

At the heart of the PIP1710 CONNECT is BeyondCry, Zoundream's AI-powered cry translation technology, which recognises and interprets five key baby cries in real time. So whether your little one is hungry, tired, uncomfortable, or simply needs reassurance, stay closer, respond smarter, and parent with greater peace of mind.

CRY DETECT AND TRANSLATION

Crying is a newborn's way of expressing needs. With BeyondCry you can interpret those cries in real time, ensuring you're always connected and responsive to what your baby needs most. Trained on over 10 million hours of real-world audio, this intelligent system recognises and translates five key types of baby cries: Sleepy, Hungry, Uncomfortable, Burp, and Irritated.

Cry notifications delivered to both app and monitor

Gain personalised insights, tips, track patterns and trends
