

Why BUY ISOTECH remanufactured toner cartridges

Remanufactured toner cartridges provide financial savings against Original Equipment Manufacturers cartridges of 25% on average

Remanufactured toner cartridges provide a significant positive environmental impact – the original cores are re-used thus saving on average 3 liter of petrol per cartridge

Isotech Branded remanufactured cartridges provide total peace of mind :

- Page Yields are measured to stringent ISO Standards – **Guaranteed !**
- Print Quality is guaranteed as being similar to the Original Equipment cartridges – **Guaranteed !**
- Using an Isotech Remanufactured cartridge DOES NOT invalidate the printer warranty – **Guaranteed !**
- Isotech provide a no quibble 3 year warranty on all cartridges – **Guaranteed !**
- In the event of an issue with the printer and linked to the use of an Isotech remanufactured cartridge, an engineer will be sent to deal with the issue within 48 hours and the printer repaired or replaced free of charge – **Guaranteed !**

Isotech cartridges are certified to recognized Environmental Standards => **NORDIC ECOLABEL**

Each individual Isotech Cartridge is "end of line" tested before leaving the factory

Isotech Cartridges are produced in a specialized factory close to Europe with over 25 years' remanufacturing experience and numerous
