TOUCHLESS FOREHEAD THERMOMETER TE-95

Safe and hygienic

No-touch infrared technology

Colour-coded backlight

The Motorola TE-95 Touchless Forehead Thermometer is quick and easy to use, providing an accurate, ultra hygienic and non-intrusive temperature measurement every time.

No-touch infrared technology

For safe and hygienic non-intrusive measurements.

Colour-coded backlight

In Forehead mode:
The backlight colour will change for 3 seconds to:

GREEN:
Normal temperature
< 37.3°C (99.1°F)

YELLOW:
Elevated temperature
< 37.8°C (100.0°F)

RED:
High temperature
> 37.8°C (100.0°F)

In Object mode:
The display will only be lit green for 3 seconds when the unit is ready for measurement and a measurement is completed.

Real time clock

Each measurement is saved with the data and time, making it easy to track and review the results.

Fahrenheit or Celsius

Switch how the temperature is recorded.

Simple to use

Point the thermometer at the forehead and press button.

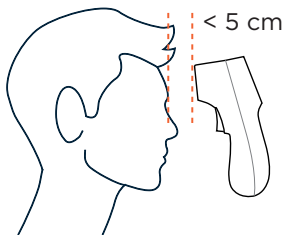

Quick readings

Fast one second reading. Beeps when done.

Memory function

Stores the 30 most recent readings for easy recall.

Hold the device less than 5 cm from the centre of the forehead and press the measurement button. A beep will indicate the measurement is complete and the temperature will show on the display within one seconds.

This product requires 2 x AAA batteries to operate. Batteries are included.
