

PMR446 radio

# G13

The new model in the MIDLAND line dedicated to the world of hunting.

Those who practice hunting activities must be able to count on a reliable, versatile and long-lasting radio. If you think you're a hunter and you're looking for a walkie talkie that will always allow you to signal your presence in the shooting area... add the new G13 portable transceiver to your equipment.

## KEY POINTS

### Bright DISPLAY

To see clearly and set the radio easily.

### INCREASED AUTONOMY

The supplied battery allows an autonomy of use of up to 40 hours

### ABOVE-AVERAGE STURDINESS

To offer greater impact resistance, the chassis is made of aluminium

### EXPANDABILITY

Extra functions programmable via software

PMR446 radio

# G13

## SPECIFICATIONS FEATURES

- Extended frequency band:  
446.00625 – 446.19375MHz
- 16 new PMR446 channels
- 99 PMR446 channels: 16 + 83  
pre-programmed

programming software)
- VOX, Scan, Dual Watch,  
Monitor
- Accessory socket: 2pin Kenwood

## SOFTWARE

Compatible with the PRG-10  
programming software code C974.01

## COMPLIANCE

Device in compliance with the RED  
2014/53/EU regulation

The reference user asks for ease of use. The G13 achieves this thanks to a touch-recognizable control layout, a large display and two main knobs:

the big one for channel change

the small one for volume control and ON/OFF.

In addition to the great sturdiness allowed by the aluminium chassis, there is the IPX4 waterproof rating.

When evaluating a transceiver, you often forget about the sound... Not with the G13: MIDLAND has provided it with a sound response of well above average quality.

The presence of the RRM (Rete Radio Montana) Channel function makes the G13 an excellent support also for those who practice hiking and trekking thanks to the possibility to automatically select the main radio frequency of Rete Radio Montana, the main emergency reporting tool.

For more information: <https://www.reteradiomontana.it/canale-8-16>

The supplied Lithium-ion battery offers ... infinite autonomy of use and the support of a fast charging circuit.

The G13 operates on PMR446 (Personal Mobile Radio) range, 446.0-446.2 MHz frequencies.

In addition to the “ready to use” features, this transceiver adds, via software, the ability to program and customize channels, enable or disable specific functions.

## PACKAGING AND CODES

The package includes:

1 G13 transceiver with belt clip, 1 2,600mAh Li-Ion rechargeable battery pack, 1 wall adapter, 1 desktop charger

Code C1462
