

CAPiDi Safety timer USB

– Timer 1-4 h, 2 x USB, 3.4 A, S-approved by Intertek

Compact safety timer with 2 x USB-ports, for wall sockets. Breaks the power after 1, 2, 3 or 4 hours. Programmed with a simple button. The remaining time is illustrated by LEDs around the socket. The timer has 3.4 A output which is divided into 2 USB ports. Available in black and white.

- CAPiDi safety timer with USB is very safe and easy to use.
- Adjustable time 1-4 hours. Automatically cuts the power after the selected time.
- Suitable for mobile phones, tablets and other USB chargeable devices where the time of charge should be controlled.
- LED indicator around the socket showing remaining time in 1-hour intervals.
- CE approved.
