

# CITIZEN

## Professional Quality and Performance in an Ultra-Compact Body

### Compact and lightweight

The CZ-01 weighs just 5.8Kg - a full 8Kg less than the Citizen CY-02 photo printer, making it easy to transport and handle. Additionally, it occupies just 31% of the volume and 44% of the CY-02's footprint, ideal if you need a small photographic printer that doesn't compromise on performance.

### Various media available

For photographers who want to make their prints stand out two types of media are available to produce a variety of formats. The CZ-01 4 x 6" media will produce 4 x 6"/102mm x 152mm and 'Instagram-style' 4 x 4"/102mm x 102mm prints, whilst the 4.5 x 8" media will produce semi-panoramic 4.5 x 8"/114mm x 2013mm prints and square 4.5 x 4.5"/114mm x 114mm prints.
